Better Use of . . . Your Electric Lights, Home

spend less for 35mm color slides and prints!

HOW? Do what smart amateur and professional photographers have been doing for years. Use Kodak's professional 35mm motion picture color negative film. . . the very same film used for Hollywood motion picture and T.V. productions.

For over 20 years RGB has cartridged this 35mm film for use in still photography for slides and prints. This film is an excellent film for both indoor and outdoor photography under a wide variety of conditions. NOW, THERE ARE TWO FILMS.

ECN 5247 - rated at ASA 100, this film is suitable for most photography. If desired, it can be pushed to ASA 200 or ASA 400.

ECN 5293 - rated at ASA 400, this film is perfect for low light level photography or for special photographic situations requiring a higher film speed. If necessary, it can be pushed to ASA 800 or ASA 1600.

These fine films possess remarkable grain quality, wide exposure latitude and excellent color rendition. YOU'LL LIKE WHAT YOU GET, AND YOU CAN'T BEAT THE PRICE! BUY EITHER OF THESE FILMS. When you send your film back to us for processing we'll include a fresh roll of film with your order. See coupon below.
